

Earthing strap

Type: PP36
Product ID: 2TKA110011G1
GTIN: 6410050260974

The earthing conductors, max. 35 mm² Cu, are connected to the various pipework using an earthing strap PP36 with a strap clamp AM2 and terminal AM3. In case a 50 mm² or 70 mm² Cu-conductor is connected to the earthing block, both ends of the earthing strap must be pressed together with the terminal to get sufficient conductivity. The terminal and the strap clamp are made of zinc-plated and yellow passivated steel. The 6 mm screws are tightened with a 10 mm wrench. The earthing strap is made of tinned annealed copper 1,5 mm thick. Product compatibility together with other materials and surrounding environmental circumstances need to be considered always separately.

Technical specification

Packing

Package:	20
Unit:	PCS

ETIM Data

ETIM Version:	ETIM-9.0
ETIM Class:	EC000493
Clamping/chucking range:	13...164 mm
